Council and Mayor,

Yesterday, I had an opportunity to speak to a local resident who had ideas about Phase II that he would like passed along to each of you. He had wanted me to share these ideas at a meeting last night. But, I was not able to attend last night's session due to another evening meeting held in Westfield Center.

We shared a chat earlier in the day and he followed with an email that I am attaching for your consideration.

Should you desire to make comment or converse with him, you will find his name and email attached for your benefit.

Best,
Beth

Beth:

I apologize for interrupting your walk today. I very much appreciate you accepting my call. To build further on our discussion, I have presented bullets below regarding my proposal for Phase 2. Please keep in mind that this idea came to me this on Sunday so my concept needs quite a bit more thought and discussion.
