I will comment in next 48 hours.
Lots of easy improvements

I really want your opinion.

These are supposedly printed.
But haven't arrived yet.

Our strong concern is these are not bold enough to be her first message out of the gate. They will be posted every where and the war will begin.

I feel despite the \$\$\$ spent these have to be redone. Nicole has told us she is willing to redesign them but the clock is ticking.

What say you?

Hello Ladies,

Thank you again for taking the time to meet with me today! I am feel much better about getting this campaign rolling!

Here is some fast information we spoke about. Door 'hangs' and me in 30 seconds (plus). This is draft 2 so feel free to question, mark up, and comment on anything that doesn't make sense.

I started looking at the voter registry and will get that marked up version to you shortly.

Candidate Davis in 30 seconds.

I grew up in this town, I love this town, I want to use my talents and experiences to give back to our community.

I graduated from Hudson high in 2007. I consider it a privilege to be able to move back to Hudson so young and to have the opportunity to some day raise a family here in this great community.

My goal is to maintain our city's history while also balancing new technology and advancements that will ensure Hudson's continued success.

As an architect one of my passions is historic buildings; they can provide beauty and grounding for a community. There is so much value to be gained by looking at the roots of a community to spur growth and development for the next generation. A wise person once told me, if you aren't moving forward, you are falling back. Hudson is a top city; one of Ohio's premier communities and we can maintain that status if we keep up with developing technologies and keep Hudson moving forward.

Open, honest discussion and careful consideration are the best tools to use when working through divisive issues.

God gave us each two ears and one mouth, and I believe He intended us to use them in that proportion. Each person in a discussion has value to bring and if you have information that conflicts with someone else, tactfully share that information and come to an understanding on the topic, even if that understanding is to respectfully disagree.

Every situation has more than one side; there are very few things in life that are strictly black and white.

I believe that in every situation there needs to be room for grace. Each situation is unique and has different circumstances. I hope to be able to gather the opinions, hopes and desires of my Ward 4 neighbors and communicate them to council. As Ward 4 representative my goal is to be your voice and not to push a personal agenda.

Bill Woodridge – Current Council President has endorsed Nicole

Casey Weinstein – State Rep. district 37 states “Nicole is a force for good and positivity in Hudson, and tremendous experience in bringing people and groups together will serve her and us well on council!”
